DSRFDSF							
SDF SDF							
DSFSDF A quotation allows a prospective buyer to see what costs would be involved for the work they would like to have done. Here quotation is a important role in our system. Quotation preparation, quotation approval, quotation reopened are the main process against the quotation.Basically a quotation generate only on the basis of a lead. Quotation generation and quotation approval and quotation reopened are different activity roles. Only the authorized employees can do these works. There is a separate page for quotation (because it something important). There is a direct link to that page from lead page or direct link from lead table in the dash board. Quotation preparation can do after generate the lead, it can save multiple times, when it get confirm then it goes to approval for the authorized person. After confirm approval authority can return the quotation or approve the quotation. After approve if authorized person can reopen the quotation and again confirm and approve.
